

MASK POLICY CHANGE

At the May 18 Session meeting, our Ruling Elders, considering the latest CDC recommendations as well as information in our own county regarding dropping numbers of Covid-19 cases are making the following policy changes:

1. Starting on June 6, 2021, masks will be optional in the sanctuary and in the rest of the building. There will not be designated sections for masking or non-masking in the sanctuary, but please continue to be sensitive and respectful of others around you!
2. Seating in the sanctuary will continue to be organized using social distancing.
3. Communion will continue to be offered using the individual sanitized containers through at least August 1.
4. Our worship service will continue in its current format. The possibility of adding more congregational singing to the service will be considered as we continue to monitor the Covid case load in our area.
5. Vacation Bible School will be using masks and/or social distancing for those portions of VBS that are indoors. Please check our VBS registration page on the website for more details.

The church has done a tremendous job of working together through the 15 months we have faced this pandemic. Thank you for 'bearing with one another in love' (Ephesians 4:2), and may we do so more than ever as we are (hopefully) reaching the final stages of this journey!
